SUMMARY

AI-native Product Manager with 4+ years delivering full stack products across international markets. Hands-on builder who independently designed and shipped **10+ full-stack AI prototypes** from ideation through GitHub versioning to Vercel deployment, directly contributing to presales wins and deal closures. Skilled in Product road mapping, Agile delivery, and translating AI capabilities into customer-facing value. Certified in Claude Code and Product Management.

SKILLS

AI & Generative AI	Prompt Engineering, AI Workflow Automation, LLM Integration, Model Validation, Claude Code, Google AI Studio, Lovable
Prototyping & Dev	Full-Stack AI App Development, GitHub (version control), Vercel (deployment), Figma, API Testing
Product Management	Roadmapping, OKRs/KPIs, PRD Authoring, Sprint Planning, Backlog Prioritization, User Story Mapping, A/B Testing
Data & Analytics	SQL, Python, Microsoft Excel, Operational Data Analysis, Performance Tracking, Funnel Metrics
Payments & Tools	Stripe, Razorpay, International Checkouts, Subscription Lifecycle, Jira, Zapier, Make, Shopify

CERTIFICATIONS

Claude Code in Action — Anthropic	2025
Product Management Launchpad — Naggappan Ramasamy x Airtribe	2024

EXPERIENCE

doodleblue Innovations	Chennai, India
Product Manager	Mar 2024 – Present

- Managed end-to-end delivery of **7+ products** across web and mobile platforms for global clients owning scope, schedule, budget, and quality from start-to-go-live.
- Independently built and deployed **10+ full-stack AI prototypes** (Lovable, GitHub, Vercel) as live presales demos, enabling clients to visualize the product before contract sign-off directly contributing to **deal closures**.
- Applied **blank-stage discovery workshops** at project initiation to surface hidden requirements early, aligning client expectations and engineering understanding before sprint kickoff reducing costly mid-sprint scope pivots.
- Coordinated cross-functional teams (**Dev, QA, design**) across multiple concurrent project tracks; scheduled and facilitated standups, sprint ceremonies, and stakeholder review meetings.
- Led sprint planning, backlog grooming, and retrospectives increasing **sprint velocity by 15%** and improving delivery predictability.
- Ran **product discovery and journey mapping workshops** with global stakeholders, reducing the ambiguity of requirements by **23%**.

Mobius Knowledge Services	Chennai, India
Business Analyst	Aug 2021 – Oct 2023

- Defined **functional requirements, user stories, and UAT scenarios** for complex portal workflows, while serving as the primary liaison between stakeholders and the engineering team.
- Identified automation opportunities using operational data, improving efficiency by **30%** and reducing turnaround time by **50%**.
- Delivered **BRDs, SOPs, governance reports, and UAT documentation** supporting data-informed decision-making across enterprise teams.
- Supported Agile delivery through sprint ceremonies, requirement clarifications, and release validation.

Ernst & Young GDS	Trivandrum, India
SAM Analyst	May 2021 – Aug 2021

- Optimized IBM software licensing, saving **\$5,000/month** and reclaiming **100+ unused licenses**, improving compliance by **15%**.
- Maintained **98% on-time resolution** for escalations and audit requests.

EDUCATION

MBA — Analytics & Operations	2019 – 2021
Amrita School of Business, Coimbatore	Scopus-indexed research publication
B.E. — Electronics & Communication Engineering	2015 – 2019
K. Ramakrishnan College of Engineering, Trichy
